Professional Summary

Backend Software Developer with hands-on experience in building scalable web applications using Java Spring Boot, ASP.NET Core, React.js, and SQL. Skilled in REST API development, database design, cloud deployment, and third-party integrations. Passionate about writing clean, maintainable code and delivering reliable software solutions.

Skills

Programming Languages: Java, C#, C/C++, JavaScript, SQL

Frontend Technologies: React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design

Backend Technologies: .NET, Spring Boot, RESTful APIs, Node.js, Express.js

Databases: MySQL, PostgreSQL, MongoDB

Tools & DevOps: Git, GitHub, Docker, Kubernetes, CI/CD Pipelines, Maven.

Experience

Backend Developer Intern May 2026 to Present
Averybit Solutions Pvt Ltd, Indore

- Developed RESTful APIs to support front-end functionalities.
- Collaborated with team members to troubleshoot and resolve critical backend issues, improving system reliability.
- Integrated third-party services to expand application capabilities, enhancing user experience.
- Wrote clean, maintainable code adhering to industry best practices, ensuring long-term project sustainability.
- Managed database operations using SQL for data retrieval and storage.
- Assisted in deploying applications on cloud platforms for scalability.

Software Development Intern April 2025 to March 2026
ThrivesUp Consultancy Services Pvt Ltd, Indore

- Completed hands-on training in Java, Spring Boot, REST APIs, SQL, and backend application development.
- Built and enhanced backend modules under the guidance of senior developers using industry best practices.
- Learned Git-based version control and collaborated on development tasks in a team environment.
- Debugged and resolved application issues while improving code quality and maintainability.

Education and Training

Bachelor of Computer Applications (BCA) July 2025
Devi Ahilya Vishwavidyalaya, Indore

CGPA – 6.11

High Secondary Education July 2022
Tirathbai Kalachand School, Indore

PERCENTILE – 74.6

Projects

ShoeNpen – Mock Test Management System

[Link](#)

Java, Spring Boot, JSP, MySQL, AWS

- Developed an online mock test platform with role-based access for Admin, Teachers, and Students.
- Built REST APIs for test management, user management, and result processing.
- Designed and optimized MySQL databases and deployed application modules on AWS.

InfraMart - Multivendor construction and service platform

[Link](#)

ASP.NET Core, EF Core, MySQL, React.js, Cloudflare R2, Render

- Developed scalable marketplace APIs for customers, vendors, and administrators.
- Designed relational databases using MySQL and Entity Framework Core.
- Integrated Cloudflare R2 storage and implemented secure authentication and authorization.
- Deployed using render and docker with making CI/CD pipelines.

Nexa AI – Next Generation AI-Powered Chatbot Platform

[Link](#)

NET Core Web API, React.js, PostgreSQL, Cloude CoWork, REST APIs

- Developed RESTful APIs for chatbot communication and data processing.
- Integrated AI APIs to generate intelligent real-time responses with context.
- Designed responsive frontend components using React.js.
- Implemented database operations using Entity Framework Core.
- Managed API Models and communication, error handling, and optimized application performance.
